

2B News

Dates to Remember

- This Thursday we will have an Earthquake drill.
- Friday is an 8th grade pizza lunch.
- Friday we will enjoy the Living Rosary led by the 7th grade students. Please join us if you can in the church at 8:35am. Perfect Uniform day.
- Next Friday, October 25th, students will bring home a mid-trimester report.

Reminders/Notes

- * Keep practicing the Morning Offering prayer. I will begin testing those who volunteer next week.

What's Happening in Second Grade!

Language Arts – We will continue learning about plural nouns, taking a close look at the rules, while participating in a few activities.

Poem of the Week - Our poem this week is titled, "Ghost Questions."

Spelling Words - NO SPELLING TEST THIS WEEK.

Reading – Ms. Corrigan's group will finish up last week's lesson while my reading group will spend time in reading stations practicing our reading fluency skills and working on our oral comprehension. Time will also be used to take a few short assessments in preparation for mid-trimester reports that will be coming home next Friday.

Working on their Social Studies community project

Social Studies cooperative learning group

Handwriting practice and review

Math – Our lessons focus on finding patterns to solve story problems, using repeated addition to add equal groups and using arrays with repeated addition.

Religion – We will pause our learning focusing on the Liturgical Calendar and spend time reviewing the rosary. While discussing and praying the prayers at each bead, students will create a rosary project.

Social Studies – Students will present their communities to the class. Students will also take a short quiz to check for understanding of the chapter we read together in class.

Science - We begin our Matter unit where students will be introduced to the three states of matter – solid, liquid, and gas. Students will identify the properties of these states of matter, compare and contrast the properties of solids and liquids and recognize that matter can go through changes without physically changing the material it is made of.

Homework

Monday - Second Step: Respectful Behavior Sheet

Tuesday - Math: Story Problems

Wednesday - Spend time with your family. Play a game, go for a walk, watch a movie!

Thursday - Reading: Read aloud to an adult for at least 20 minutes

Have a wonderful week,

Brenda Yi
